WASTEWATER TREATMENT CONSTRUCTION DATA BASE

Awards for the wastewater treatment facilities constuction grants under Public Law 92-500 made during a particular month are listed in a monthly publication entitled "Wastewater Treatment Construction Data Base - Public Law 92-500 Project Records." This publication is prepared by the Grants Administration Division and distributed and sold by the National Technical Information Services.

The March 1974, issue (PB 23130) provides a base listing of all grants awarded under Public Law 92-500. Beginning with the April 1974, issue (PB 231300-01) the listings will contain awards for one month only and will be numbered in sequence. Microfiche (24X) of each copy is also available. The subscription price is $100.00 annually starting January 1, 1975. Previous issues can be purchased at $25.00 a copy.

The publication is distributed to subscribers approximately five weeks after the close of the awards-listed month. It may be obtained through:

National Technical Information Services
U.S. Department of Commerce
5285 Port Royal Road
Springfield, Virginia 22151

NOTE: All of the preceding publications are available for examination at the Grants Office and Library of EPA Headquarters and each Regional Office.

NEW STATE PROJECT PRIORITY LIST PUBLISHED

The most recent "State Project Priority List" was delivered to the National Technical Information Services (NTIS) on January 12, 1976 for publication and sale.

State Project Priority Lists are expected to include projects planned for EPA funding thru September 1977. Lists from some States may include a lesser number of projects, or in a few cases, a project priority list may not have been available for inclusion in this publications. Information on the various aspects of the projects would be available only thru the respectibe State Water Pollution Control Agency or the EPA Regional Office, if the State has completed its processing of the application. A list of State Water Pollution Control Agencies is contained on page 35 of the EPA publiction "Federal Assistance Programs of the Environmental Protection Agency" listed below.

Addendums to the "Project Priority List" will be issued as these lists become available. To avoid delaying the publication of the material on hand, this Project Priority List will be issued through NTIS as part of the subscription service for the "Wastewater Treatment Construction Grants Data Base."

The "State Project Priority List" should be used in conjunction with the "WWT Data Base" since the making of an award on a project contained on this list is reflected in the monthly issue of the "WWT Data Base." Because of this and the necessity of issuing addendums to purchasers of the intial priority list, the list will not be sold separately.

At the present time, a one year subscription (12 monthly issues of the "WWT Data Base" and any "State Priority Lists" or addenda to the list that are issued) costs $100.00.

The "WWT Grants Data Base" publication is distributed to subscribers approximately six weeks after the close of the awards-listed month. It may be obtained through:

National Technical Information Services
U.S. Department of Commerce
5285 Port Royal Road
Springfield, VA. 22151

"FEDERAL ASSISTANCE PROGRAMS OF THE ENVIRONMENTAL PROTECTION AGENCY"

This publication includes descriptive information about Environmental Protection Agency (EPA) assistance programs reprinted from the Catalog of Federal Domestic Assistance, which was prepared for the Office of Management and Budget. Similar information on programs of all Federal agencies is included in the Catalog which is available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20420 for $17.00 and includes charges as issued for the 1975 edition. It is also available for public use in Federal Depository Libraries.

The EPA regional Offices and the Water Pollution Control Agency of each State are listed in the Appendixes. Applications for Wastewater Treatment Construction Grants should be obtained through the State Water Pollution Control Agencies. This booklet contains general information about the EPA grant programs useful to an applicant.

This booklet is revised periodically to reflect program changes and new legislation which affect EPA assistance programs.

Copies of this booklet may be obtained from the Environmental Protection Agency, Grants Information, Grants Administration Division (PM-216), Office of Planning and Management, Washington, D.C. 20460.

OTHER GRANT RELATED INFORMATION

A 200-250 word summary of a grant project is available on the majority of research and demonstration grants.

These summaries are available only for projects that have received EPA funding. In rare instances, a grant application may contain privileged information and is so designated. For these, only the award data, such as grant number, applicant's name, organization, location, grant title, grant amount awarded, and award date is available; other information may be available depending on the particular circumstances.

The Smithsonian Science Information Exchange (SSIE) Rm. 300 1730 M Street, N.W., Washington, D.C. 20036, receives a copy of the summary of a grant and makes it available to the public on a fee basis. The cost of a print-out, if the Agency is identified and the grant or contract number is provided, costs $1 per grant number with a $10 minimum fee. A search on a subject (topic) is $50 per search service for 1 to 50 titles, and in addition $10 for up to 50 additional titles. A search on the investigators name can also be performed. All inquiries and request for this service should be addressed to SSIE or phone (202) 381-5511.

REPORTS GENERATED BY GRANT SUPPORTED PROJECTS

Final reports and other program reports generated by grant supported projects are published and published and made available if merited. Grants Administration Division does not have the responsiblility for the technical monitoring of grants projects, this is the programs function; therefore, program and final report information is available from the following program offices:

For solid waste management and resource recovery:

Publication and Distribution Unit
Office of Solid Waste Management
EPA, Cincinnati, OH. 45268

For air pollution control:

Air Research Technical Information Center
Environmental Protection Agency
Research Triangle Park, North Carolina 27711

For pesticide publications:

Information Section
Office of Pesticide Programs
EPA, Washington, DC. 20460

For water:

Publications Branch (water) Research
Information Division
EPA, Washington, DC. 20460

For other research and demonstration projects:

Technical Information Staff
Office of Research & Development
EPA, Cincinnati, Ohio 45268

Each of the Above units publishes a bibliographic list showing price and giving purchasing information.

In addition the National Technical Information Services (NTIS), Department of Commerce publishes a complication of all publications submitted by EPA for sale thru the NTIS system. This includes most EPA publications and reports generated from projects receiving EPA contracts or grants.

KEEP UP TO DATE

Between the time you ordered this report—which is only one of the hundreds of thousands in the NTIS information collection available to you—and the time you are reading this message, several *new* reports relevant to your interests probably have entered the collection.

Subscribe to the **Weekly Government Abstracts** series that will bring you summaries of new reports *as soon as they are received by NTIS* from the originators of the research. The WGA's are an NTIS weekly newsletter service covering the most recent research findings in 25 areas of industrial, technological, and sociological interest—invaluable information for executives and professionals who must keep up to date.

The executive and professional information service provided by NTIS in the **Weekly Government Abstracts** newsletters will give you thorough and comprehensive coverage of government-conducted or sponsored research activities. And you'll get this important information within two weeks of the time it's released by originating agencies.

WGA newsletters are computer produced and electronically photocomposed to slash the time gap between the release of a report and its availability. You can learn about technical innovations immediately—and use them in the most meaningful and productive ways possible for your organization. Please request NTIS-PR-205/PCW for more information.

The weekly newsletter series will keep you current. But *learn what you have missed in the past* by ordering a computer **NTISearch** of all the research reports in your area of interest, dating as far back as 1964, if you wish. Please request NTIS-PR-186/PCN for more information.

Keep Up To Date With SRIM

SRIM (Selected Research in Microfiche) provides you with regular, automatic distribution of the complete texts of NTIS research reports *only* in the subject areas you select. SRIM covers almost all Government research reports by subject area and/or the originating Federal or local government agency. You may subscribe by any category or subcategory of our WGA **(Weekly Government Abstracts)** or **Government Reports Announcements and Index** categories, or to the reports issued by a particular agency such as the Department of Defense, Federal Energy Administration, or Environmental Protection Agency. Other options that will give you greater selectivity are available on request.

The cost of SRIM service is only 45¢ domestic (60¢ foreign) for each complete microfiched report. Your SRIM service begins as soon as your order is received and processed and you will receive biweekly shipments thereafter. If you wish, your service will be backdated to furnish you microfiche of reports issued earlier.

Because of contractual arrangements with several Special Technology Groups, not all NTIS reports are distributed in the SRIM program. You will receive a notice in your microfiche shipments identifying the exceptionally priced reports not available through SRIM.

A deposit account with NTIS is required before this service can be initiated. If you have specific questions concerning this service, please call (703) 451-1558, or write NTIS, attention SRIM Product Manager.
